Date: 18/9-2017

I was the Chairman and prime organizer of the 16.th European Meeting on Complement in Human Disease that was held from September 8th to 12th, 2017 at Hotel Scandic Copenhagen. At the Congress there were nearly 440 participants from 28 nations. The Congress was a mixture of teaching sessions, keynote speeches and scientific presentations combined with numerous social events. We choose to use the Danish Congress Organizer the Meeting Planners that was in charge of the practical arrangement of the Congress. They were also involved in all pre congress steps from designing logo, attracting sponsors, running homepage, organizing abstract reviewing, putting the final program together, budget planning etc as well as the daily organization of the congress including transportation and lodging. We could not have chosen a better partner than the Meeting Planners under the leadership of Ms Berrit Rasmussen and her colleagues. They impressed me and I will for sure use them again to arrange future scientific congresses. The services they provided were timely and of very high quality. I cannot remember I have experienced a congress organizer as professional as the Meeting Planner, but at the same time with a personal touch, making the 16.th European Meeting on Complement in Human Disease a great success given the feedback I have received from participants.

To sum up The Meeting Planner is an excellent top international congress organizer and is an example to be followed by others.

Do not hesitate to contact me for further views or considerations.

Best regards
